

## More business from wine modular wine serving units

modular  
by the glass.eu

## Standard features of The Modular:

1. Climate control; (from 7 degrees up to 20 degrees) at max. 25 degrees room temperature (ambient)
2. Preservation; by adding either argon or nitrogen gas (no taste, colour or smell)
3. Presentation; by using the By The Glass® Modular, the inserted bottles are always presented in an elegant way
4. Serving; with portion control (3 different doses), you always serve the exact desired pre-set amount of wine
5. Easily expandable by linking multiple units by using only one plug (up to 6 units)
6. Doors can be locked to avoid access
7. Tubes which guide the wine are easy to change, so optimum hygiene
8. Two different cork types in order to fit all types of bottles
9. The inner LED lighting is dimmable in two positions

## Technical data:

- Dimensions including adjustable feet (excluding side panels) L x H x D = 250 x 690 x 230 mm
- Dimension (optional) side panels (L x H x D) 18 x 680 x 230 mm
- Steel door with thermopane glass
- Weight 20 kg
- Number of bottle positions: 2
- Thermoelectric cooling with ventilation outlet at the front
- Electronic temperature control
- 3 x energy-saving LED lights "warm white"
- Voltage 110 or 230 V auto switching
- Certifications CE and UL/CSA
- One year guarantee on all components.

## More business from modular wine serving units

modular  
by the glass.eu

How many fine wines would you like to offer **by the glass**?  
Two, four, eight or dozens? The **Modular** makes it all possible!

The system can be positioned stand alone, mounted to the wall or can be completely built in a wall, kitchen or cabinet

2 consecutive units

To limit any possible downturn in growth or even volume shrinkage, not to mention pressure to lower the price, new creative ideas are required. By The Glass International B.V. offers solutions that can help you reach even higher wine sales. In this brochure, you will learn about the new By The Glass® Modular wine serving units.

1 unit stand alone

**'Very easy to operate'**

- Easily expandable by connecting (endless) units together
- All cords and cables in the rear can be looped to only one output
- Sidepanels adaptable to any type of interior

**'Less than 55 cents per bottle position per day'**

- The investment can take place in "Modular" parts
- Meets the requirement for choice and quality per glass

- Meets the requirement for 'try before you buy'
- Excellent to help (wine)producers/wholesalers to build their brand(s)
- Suitable for On-Trade, Retail and home use

**'Volume and profit guarantee'**

- No more spillage from having bottles left open
- The wine (or spirit) is always in optimal conditions and at the right serving temperature
